
FOR VIP TRANSFER, BUS CHARTER AND LOGISTICS COMPANIES

Become the trusted name in event logistics

Artist transfers, crew transport and equipment logistics: every event is a transport operation. Connect your fleet to that demand through Turing.

Turing at a Glance

Turing connects transfer and logistics companies to the event industry's time-critical operations; work comes to the profile rather than the network, and the plan holds on a written basis.

THREE CORE VALUES FOR YOU

- 01 Work through your profile**
Requests matching your region and fleet are announced automatically.
- 02 Clear operations**
Schedule, route and terms in one recorded flow; everyone sees the same plan.
- 03 Fleet utilization**
City- and date-based demand data fills idle capacity.

What is Turing?

Turing is a B2B marketplace that brings event organizers and service providers together on a single platform. Requests, offers and digital contracts move through one flow; every step of the process is on record.

Payment and collection status is monitored through the financial tracking screen in the app. Service fees are settled between the parties under their own agreed terms — Turing does not act as an intermediary for these payments.

TRANSPARENT REVENUE MODEL

Turing earns revenue from only two sources: a tiered commission from organizers per completed transaction (15% down to 5%) and an optional subscription for service providers (Free / PRO / PREMIUM). There are no hidden fees of any kind.

END-TO-END SUPPLY ACROSS SIX CATEGORIES

- 01 Artist & Booking**
Artist access through managers and booking agencies
- 02 Technical Production**
Sound, lighting, stage and LED systems
- 03 Venues**
Concert halls, open-air spaces, hotels, studios
- 04 Accommodation**
Group accommodation for artists and crews
- 05 Transport**
VIP transfers, crew transport, equipment logistics
- 06 Operations**
Security, front-of-house and field staff

Real Problems from the Field

This file starts from your agenda: on the left, a problem the industry faces every day; on the right, its counterpart on Turing.

PROBLEM	WITH TURING
1 The event industry's transfer and logistics jobs circulate among a few incumbent companies; breaking into that network from outside takes years.	On Turing, work goes to the profile, not the network: requests matching your region and fleet are announced to you automatically. You become visible through accumulated reviews instead of accumulated favors.
2 Operational details arrive last-minute and piecemeal: times change, routes change, who should be where gets lost on the phone.	Request details and changes proceed in one recorded flow; the confirmed plan is in the digital contract. On operation day everyone holds the same information.
3 Waiting time, extra runs and extra mileage stay verbal, so invoicing disputes keep happening.	Vehicle type, route, waiting and extra-run terms are written in the offer and bound by the contract. When extra work comes up, the baseline is clear; you follow collection status in the app's financial tracking.
4 Fleet utilization swings: some days vehicles run short, other days they sit in the lot.	City- and date-based request flow feeds your occupancy planning; you open idle capacity to seasonal event density.

Example flow: two cities in one day, artist + 12-person crew

The steps follow the real platform flow; names are illustrative.

- 1 A management team opens a "VIP sedan + 12-person minibus + equipment van" request for a Saturday Ankara concert followed by a Sunday İzmir festival.
- 2 The request lands with your company, which operates in both cities; the schedule and route are in the request.
- 3 You send a package offer covering vehicle types, driver and waiting terms.
- 4 The contract is signed digitally; a Saturday-night schedule change is confirmed in writing in the same flow — the operation doesn't slip.
- 5 The review from two days of flawless operations lands on your profile; the management team calls you directly for the next tour.

What Does Turing Offer You?

In the event industry, transport is the service where timing matters most — and organizers work again with the company they trust. Your Turing profile makes that trust visible through references and reviews.

01 Fleet and service showcase

Present your VIP vehicles, bus capacity and logistics capabilities; build trust with insurance and certification documents.

03 Offers with clear scope

Send offers covering vehicle type, route, waiting time and driver terms with templates; bind them with a digital contract.

05 Repeat client relationships

Every on-time, smooth operation turns into a review; organizers call you directly for the next event.

07 Driver and crew coordination

Invite team members and authorize them per job; assignment, schedule and route information is identical in everyone's hands on operation day.

02 Requests matched to your routes

Transfer, intercity transport and equipment logistics requests matching your service region arrive as instant notifications.

04 Recorded and transparent process

Job details, contracts and correspondence are recorded on the platform; you follow your financials in the app. No surprises on operation day.

06 Season and route planning

City- and date-based request flow lets you see fleet occupancy ahead of time; position your vehicles around seasonal event density.

How It Works

**01****Create your company profile**

Add your fleet, service types and operating regions.

**02****Receive requests**

Transfer, group transport and logistics requests are announced to you.

**03****Send your offer**

Deliver an offer that pins down route and terms.

**04****Complete the operation**

Finalize the job with a digital contract; as your rating grows, so does demand.

Frequently Asked Questions

Q. Which service types see demand?

A. VIP vehicle transfers, airport pickups, minibuses and bus charters, intercity transport and equipment logistics are the most frequent requests.

Q. How are last-minute schedule and route changes handled?

A. Changes are confirmed in writing within the request flow; the confirmed plan is in the digital contract and every party sees the same information. No detail is lost on the phone on operation day.

Q. How does insurance work in equipment logistics?

A. Insurance and transport terms are finalized in your offer and the digital contract; your documents live on your profile and build trust.

Q. Is it suitable for a single-vehicle VIP transfer company?

A. Yes. Companies of every scale can open a profile, from a single VIP vehicle to fleets of dozens; requests are matched to your capacity and region.

Free Professional Tools

7 free tools at turingtr.com/en/tools, no sign-up required: budget calculator, event checklist, cost comparison, technical rider builder, stage planner, academic calendar and demand map — all available in English (only the demand map explorer is currently Turkish).
